Dogs In Paradise - dog artwork

I just met a real nice lady over the Internet and she told me about her husband's website [Dogs In Paradise](#). Stan Sternberg takes, maybe uses as a better choice, a picture of your dog, then creates an original impressionistic digital painting of your dog that retains all the character of your very own poochy.

Your dog art is 16 x 20 inches when matted and will last a lifetime on the high quality acid free paper printed with archival pigmented inks.

I think that Stan has a new method to creating images but you'll need to contact him directly to get the scoop! According to his website his email is stan@dogsinparadise.com.

Let's support local businesses if you live in Michigan. Stan is a local Michigan resident and lives in Dexter. The Sternbergs often sell their work at local fairs but you can contact them through their site if you would like an original created of your lovely pet.
